Little Bear

Mr. Fred Summers
Paradise, Utah

Mr. Marion Olsen
Paradise, Utah

Gentlemen:

Due to expectations of a high, early runoff and to have a more efficient operation of Hyrum Dam, as well as the Little Bear River Distribution System, it will be necessary for water releases from Porcupine Dam to be correlated with water releases from Hyrum Dam.

Would you please ask your gate man on Porcupine Dam to contact Mr. LeRoy Smith, Superintendent of Hyrum Dam, so that you both might be able to correlate your operations.

Yours very truly,

Wayne D. Criddle
State Engineer
